CHANDAPURA, BANGALORE

Make it yourself- White Clay Ornaments

Make some beautifully smooth corn flour clay this winter to decorate your home with Christmas ornaments.

Materials Needed:

- corn flour
- PVA glue
- a mixing bowl and spoon
- rolling pin and cookie cutters
- ribbon for hanging (if you make decorations)

How to make cornflour clay

1. You need two parts cornflour and one part glue - here, to make a small amount of dough, we used one cup of cornflour and half a cup of PVA glue.
2. Mix the two ingredients together in a bowl.
3. They should come to a dough which you can pick up and mould in your hands. Add a little more glue if it is not sticking and a little more cornflour if it is too squidy until you get your dough looking right. You can use the dough to make all sorts of models (little snowmen are cute in winter time) or you can use it to make pretty hanging decorations. If you want to make decorations read on.
4. Sprinkle a bit of cornflour on your board and then roll out your dough.
5. Use a cookie cutter to cut out shapes.
6. Make a hole in the top with the bottom of a paintbrush

Cervical Screening- Helping To Decide

It is your choice whether to have cervical screening test or not. This guide will help you to decide. Cervical screening also called smear test, PAP smear test.

What is cervical screening?

It is not a test to diagnose cancer. It is a test to check for pre-cancer changes (abnormal cells) in the lower part of the uterus (cervix). If left untreated it can become cervical cancer.

The doctor inserts an instruments called speculum into the vagina and take small sample of cells by touching the cervix with spatula/brush for analysis. The cell sample is send to a laboratory for examination under a microscope.

It is only mildly uncomfortable and generally not painful. The test will be completed in minutes. It takes few days for the week.

Who are all need to do the cervical screening?

Cervical screening can be done for all women from 25-64 years of age once in every 3-5 years.

How to prepare for a PAP smear?

Do not Douche or any vaginal cream/pessary 2 days before the test. And PAP smear is not done during periods it can give inaccurate results.

How to follow up after the test result?

If the test is normal, your doctor will recommend how often you should be tested based upon your risk factors.

Is there any other screening test for cervical cancer?

HPV DNA test is also available which is more sensitive and can extend the duration of cervical screening.

Cervical cancer is the second most common cancers of women in India despite of largely preventable by regular screening and HPV Vaccination.

I hope you decided to do your PAP smear and visit any gynecologist near you.

Secret to Live RICH !

Description: Everyone on this planet wants to live RICH and create a dream life for themselves and their family. I was also one among them, I was born to lower-middle-class farmer parents in a tiny village, and dreamt of living RICH. A computer engineer and was raised to work for a world respected organisation called the United Nations for 17 years span of 3 continents 9 countries. I thought just to contribute my personal experience and knowledge I have gained through renowned Mentors, 75+ books which include self-development, successful people biography, Conferences, NLP(Neuro Linguistic Program) Master Practitioner. I'm on a mission to TRANSFORM one million professionals from mediocre to millionaire and elevate them from Ordinary to Extraordinary lifestyle.

Energy Conservation Day - Dec 14

India celebrates National Energy Conservation Day on December 14 each year. Since the Bureau of Energy Efficiency (BEE) implemented the Energy Conservation Act on this day in 2001, it has been observed as a day to promote energy conservation. Formed under the Union Ministry of Power, the Bureau of Energy Efficiency – BEE, has been leading the celebrations of National Energy Conservation Day annually on December 14 since 1991. A constitutional body that falls under the Government of India, the Bureau of Energy Efficiency assists in the development and implementation of strategies and policies to reduce excessive consumption of energy. The committee also executed 'The Energy Conservation Act' in 2001.

As part of its awareness campaign, awards are distributed annually on this day in 56 subsectors of the country to recognize achievements in energy efficiency. The National Energy Conservation Awards Programme commends the efforts of the industry, institutions, and establishments ranging from power plants to hotels to shopping malls. Prizes are also awarded by the BEE to winners of the National Painting Competition centered on the theme of energy conservation.

Vijay Diwas

Saluting The Real Heroes

Vijay Diwas on December 16 is when the Indian Armed Forces, including veterans, citizens, and students, pay tribute to and remember the sacrifices of their soldiers. Vijay Diwas celebrates India's historic military victory against Pakistan in the 1971 war; which also liberated Bangladesh from Pakistan.

It commemorates and celebrates the victory of the Indian Armed Forces in 'Operation: Vijay' against the infiltrating Pakistani troops. Rich tributes are given to martyrs who put their lives on the line during the war.

The war between Pakistan and India lasted for 13 days, ending on December 16, 1971, and resulting in the liberation of a new country by the name of Bangladesh. It was India's front which made nearly 93 thousand Pakistani soldiers surrender and altered the contours of the map of the world. A proud moment for the Indian army, this was their first conclusive win after the end of World War 2. It is also quite a big day for Bangladesh, as it earned status as an independent entity. The day is celebrated in Bangladesh as 'Bijoy Dibos.'

Pre Primary Kids Sports Day at BS International School

Dr Mahalakshmi Neo hospital

UTERINE FIBROIDS

Uterine fibroids are non cancerous growths of the uterus that are mostly seen in reproductive age group. Hormones such as estrogen and progesterone stimulate the development of fibroids in some women. Not all fibroids are symptomatic, some of them are incidentally found on scans. Heavy menstrual bleeding, pelvic pain, infertility, urinary and bowel disturbances are few of the symptoms of fibroid uterus. Very rarely, fibroids become cancerous. All fibroids need not be removed. Size, position and symptoms determine removal.
