Shikaripalya Lake - An Overview

Shikaripalya Lake, which is close to Electronics City, has been saved from extinction. A group of 11 citizens formed a conservation committee and petitioned the revenue authorities to save the lake. Though a survey was ordered last year, no

progress was made till the National Green Tribunal (NGT) took up the matter, on January 2022 the gram panchayat engaged a firm to rejuvenate the lake with CSR funding from a private company. One acre and 30 guntas of the roughly two

acres encroached had been removed after buildings were destroyed, according to the tahsildar for Anekal Taluk. ongoing drain and bund encroachment is still a worry, Garbage also entering the filtration ponds of the lake from Neeladri

Nagar. High time to stop the garbage entering the lake and request government authorities to take necessary actions to ensure water bodies are protected.

Christmas Tree Contest

A Christmas Tree Contest was held by Electronic City Times (ECT) in December to promote and honour the festive holiday, and the community responded enthusiastically. We wish everyone who entered the contest luck and offer our congratulations. We commend Kruthika (Winner), Bangalore, for the stunning exhibition design. Best wishes.

Cervical Cancer Prevention

Cervical cancer is the leading cause of cancer death among women aged 15-44. As per screening articles, The

lower mortality in India. It is cervical cancer, which is preventable with

vaccination and regular

When you get HPV, you may not know it. As per HPV screening, how often you should get screened depends on your age and whether you have had sex.

Human Papilloma Virus (HPV) is the most common sexually transmitted infection. About 80% of all people who have sex will get HPV at some point in their lives.

Side Effects:

No serious vaccine related adverse events have been reported, as the vaccine does not contain live virus. Most common side effects can be local pain, swelling and redness in the injection side. Vaccine should be deferred in any acute illness. Not recommended in pregnancy. Vaccine can be given in breast feeding women.

Should we continue cervical screening (PAP SMEAR) even after vaccination?

Vaccines are not 100% protective against the cervical cancer and not a replacement for periodical screening.

Whom should we vaccinate? What is the ideal time?

Vaccination can be given to the females as young as 9 years as well as in those aged 13-26 years ideally before the sexual exposure. We all work together to prevent cervical cancer by primary prevention (HPV vaccination) and by secondary prevention (PAP SMEAR) and spread the information to create more awareness.

BVM Global AI Internship

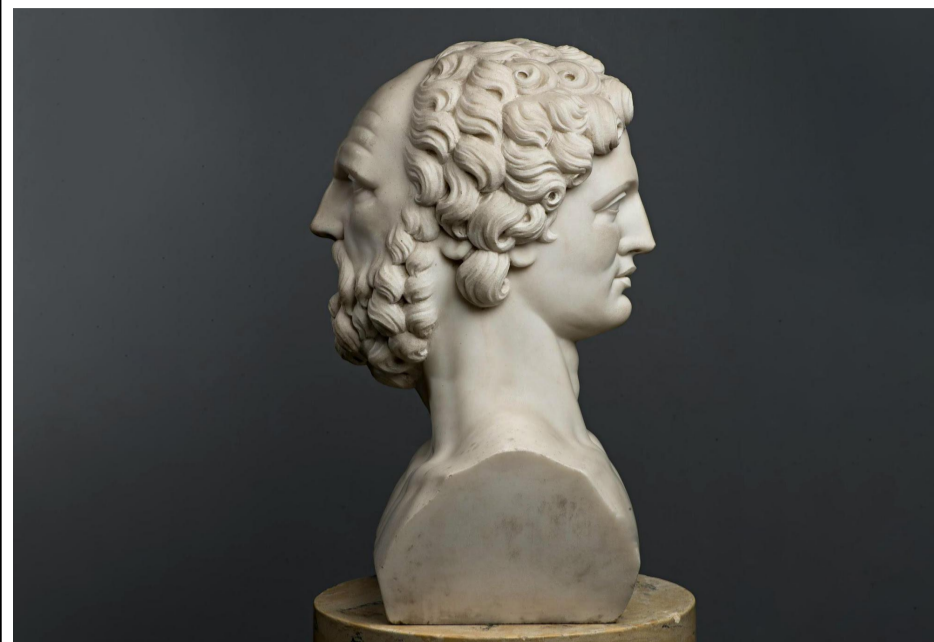

The proud winner of the competition conducted by AI school of India across the country from BVM Global school @ Bengaluru was rewarded in a novel way. Yuthran and Aavya whose project bagged third prize in the last academic year provided an enriching experience to narrow down their career path. Below is the account by Yuthran in his own words.

One of the key experiences recommended during your time as a student is doing an internship. Gaining a view of how companies work is key for boosting your employability especially in this unpredictable world. As part of the award, we had a short internship stint that comprised a class of about 1.5 hours every day. In the first few classes, we learnt about the real meaning of Artificial intelligence, and some key technical terms that employees use in the industry. In the next few classes, we progressed to Regression. This topic saw a lot of convergence between maths and the world of computers. Next, I learned about object detection.

It's how the machine detects that a cat is a cat and a dog is a dog. In the middle of these classes, we had a guest lecture from one of the heads of the AI field. He gave a very thought-provoking lecture about AI and how the company uses AI. The computer can render the objects in the store giving the customers a 3-dimensional view of the product We saw how it was done in a real mode. The last class was one in which we talked about careers in the AI industry. Internship showed me the difference between an industry employee and a student. It took me through the first steps of having a successful life in the field of AI.

Why is 1st January observed as the New Year Day

According to Greek-born historian and philosopher Plutarch, Romulus, the first king of Rome, who was "a warrior and lover of battle", was believed to be the son of Mars and preferred March. Whereas, another king named Numa, who was "a lover of peace and whose ambition was to turn the city towards husbandry and to divert it from war, gave precedence to January". The name of the month stems from Janus, the two-faced Roman god of beginnings or gates.

Later, during the time of Julius Caesar, the lunar-based Roman calendar went out of sync with the seasons. Hence, the leader along with an Alexandrian astronomer used the Egyptian solar calendar as the foundation and created the Julian calendar around 46 B.C. The New Year, as per this calendar, started on January 1.

The Julian calendar was quite lengthy and it was reformed by Pope Gregory XII leading to the creation of the Gregorian calendar. In this system too, the New Year officially began on January 1.

Become more Deserved Than Wishes! on this 2023!

Every new year, We exchange exciting greetings, and our gadgets are flooded with plenty of "Happy New Year wishes"

"Happy Health Wishes"

"Happy Wealth Wishes"

"Happy Prosperous wishes"

"Your dreams come true in this new year" and so on.

I wonder, if that is the case everybody is supposed to live their dream life, with a smiling face, a healthy physic, peace of mind, a good relationship, an abundance of finance, and a pleasant workplace, without scarcity in health, finances, job, recession, business, & relationships, right?

But in reality not the majority of people attain this. maybe a very few might achieve.

Then why do the majority stay with only wishes, not in real life?

The reason is people love to WISH only because this doesn't require any EFFORT.

People have to put effort to raise their Self Worth in other words DESERVEDNESS!

Cause Universe will not give you what you WISH but will give you what you DESERVE.

Celebrating the Achievements of Master Jonathan Gavin Antony:

A Proud Moment for BS International School Introduction:

The BS International School was filled with joy and pride when Master Jonathan Gavin Antony of Grade 08 won a Gold Medal in the CBSE South Zone Rifle Shooting Competition. The championship was held at Jain Heritage School in Belagavi, and Jonathan participated in 14 categories, representing BS International School in Electronic City. His incredible performance has earned him a place in the National level championship, to be held in Ranchi in the month of January. To honor Jonathan's achievements, the school organized a special ceremony. This is a proud moment for BS International School, and we are delighted to share these cherished moments with the world.

Table of Contents:
