Silkboard Redevelopment

Silk Board's Hosur Road under-flyover space may soon get better lighting, seating, drainage, footpaths and wall art, improving pedestrian movement and last-mile connectivity for Electronic City commuters.

DAADYS GARDEN RESIDENTS SEEK URGENT CIVIC ACTION

Daadys Garden residents report damaged roads for nine months and irregular water supply for nearly a year. Recent heavy rains reportedly worsened road conditions, raising safety concerns.

Civic Concern Near Heelalige Station

Residents have raised concerns about the underpass on the Chandapura-Dommasandra Road near Heelalige Railway Station, questioning its design and utilisation of public infrastructure. Heelalige | Chandapura-Dommasandra Road.

Streetlights Out Between Beretena Agrahara-Hongasandra

A 4-5 km stretch between Beretena Agrahara and Hongasandra Metro stations remains dark after sunset, raising serious safety concerns for women, students, senior citizens and daily commuters.

E-City Flyover Toll: Petition Seeks End to Collection

An online petition has urged NHAI and the Centre to stop toll collection on the Electronics City elevated highway after its concession period ended on September 10, 2026. The petition also seeks clarity on maintenance, NHAI takeover and action on waterlogging concerns.

Bannerghatta Road to Get White-Topping

The entire stretch of Bannerghatta Road will be white-topped to address recurring road damage, Bengaluru Development Minister Krishna Byre Gowda said after a late-night inspection. Officials were also directed to address open drains, incomplete footpaths, poor lighting and road defects along the stretch.

Bengaluru Property Owners Face New 'Software Charge'

A new ₹200 annual software charge has appeared on residential property-tax bills under the GBA, while commercial properties reportedly face a ₹1,000 charge. GBA officials say the levy covers maintenance and upgrades of digital infrastructure, while property owners have raised questions over its purpose and legal basis.

e-Aasthi 2.0 Goes Live: Bengaluru property owners can now apply online for khata bifurcation of properties up to 20,000 sq ft through e-Aasthi 2.0, with road connectivity required for each resulting property. The upgraded system also supports mutation, inheritance, corrections, new khata and amalgamation through online processing.

BWSSB EXPANSION TO COVER ANEKAL, SOUTH BENGALURU AREAS OUTSIDE GBA

BENGALURU: The State government's decision to expand the jurisdiction of the Bengaluru Water Supply and Sewerage Board (BWSSB) across the entire Bengaluru Urban district will bring several areas of South Bengaluru, including parts of **Anekal and Bengaluru South taluks**, into a unified water and sewerage planning framework. In **Bengaluru South Taluk**, all five hoblis listed in the district classification have villages that are either partly or fully outside the present Greater Bengaluru Authority (GBA) limits. They are **Kengeri, Uttarahalli-1, Uttarahalli-2, Uttarahalli-3 and Uttarahalli-4**.

The situation is particularly significant in **Anekal Taluk**, where the three identified hoblis — **Sarjapura-1, Sarjapura-2 and Sarjapura-3** — are classified as outside the GBA. This means large areas around the rapidly developing Anekal-Sarjapur belt currently fall beyond the GBA municipal boundary, even though they form part of Bengaluru Urban district. The BWSSB's expanded jurisdiction is expected to cover planning, implementation, operation and maintenance of **drinking-water supply systems, underground drainage networks and sewage-treatment infrastructure** in the newly

added areas. The move is intended to bring water and sewerage services under a **single agency** across Bengaluru Urban district as development spreads beyond existing municipal boundaries. The classification also underlines an important distinction: **the Bengaluru Urban district boundary and GBA municipal boundary are not the same**. For South Bengaluru, this distinction is especially relevant to fast-growing areas around **Anekal, Sarjapura, Kengeri and Uttarahalli**, where civic infrastructure is increasingly required to support expanding residential and commercial development.

HUSKUR GATE METRO ACCESS ROAD RAISES SAFETY CONCERNS

ELECTRONIC CITY: Thousands of commuters using Huskur Gate Metro Station are facing difficulties due to poor pedestrian infrastructure along the access road. The stretch reportedly lacks proper footpaths, while open drains run alongside the service road. Garbage dumping has also occupied portions of the pedestrian space.

With no safe walking pathway, commuters are forced to share the road with moving vehicles, increasing the risk of accidents, particularly during peak hours and after dark.

Residents and Metro users have urged authorities to clear the garbage, cover the open drains and provide a continuous, safe footpath leading to the station.

RESIDENTS MEET E-CITY THOGUR PANCHAYAT CHIEF OFFICER TO DISCUSS CIVIC ISSUES

A meeting was held on 26th September with Chief Officer Rajesh at the E-City Thogur Panchayat Office to discuss pending roadworks and other civic issues affecting Doddathogur, Chikkathogur and Neeladri Nagar. The Chief Officer patiently listened to the concerns and spent nearly two hours interacting with the residents, despite the ongoing SIR process. During the discussion, Rajesh informed the residents that funds had been allocated for the pending road-

works and would be utilised for the same. Members of the Neeladri Residents' Welfare Association (RWA) also participated in the meeting and extended their support.

Residents of the three localities have been encouraged to share their pending civic concerns so they can be collectively raised with the authorities for timely resolution. The initiative also acknowledged the continued support and guidance of DK Vinod in addressing local issues.

THE YELLOW LINE REALITY CHECK

Last-mile connectivity in Electronic City Phase 1 & 2, a year after Namma Metro arrived

When Namma Metro's Yellow Line was inaugurated on August 10, 2025, connecting R.V. Road to Bommasandra across 16 stations, it promised to transform the daily commute along Bengaluru's congested Hosur Road corridor. A year on, it has delivered on that promise: the line carried over 3.8 crore passengers in its first year, with daily ridership climbing to around 1.2 lakh by July 2026 as the full fleet came into service and peak-hour frequency improved. But the Metro's success has exposed a more localised problem: what happens after commuters leave the station. For residents and office-goers in Electronic City Phase 1 and 2, the Metro has improved the long-distance portion of the journey; the challenge lies in the final con-

nection between the station, the neighbourhood road and the destination. There has been progress. BMTC and other agencies have expanded feeder connectivity, while ELCITA continues to run shuttle services linking Metro stations with workplaces across Electronics City; Yellow Line feeder services have grown to 28 routes, making around 300 trips a day and carrying more than 15,900 passengers daily. Yet Electronic City's sprawling campuses, residential communities, and neighbourhoods make the last mile particularly difficult, since pedestrian infrastructure and transport links don't always match where people need to go. Parking capacity varies sharply. Electronic City station offers 851 two-wheeler spaces but only 36 for cars and commuters report costly autos and vehicles clustering around Metro entrances, often crowding pedes-

trians toward moving traffic. None of this diminishes the Yellow Line's achievement for one of Bengaluru's key employment corridors. But the next phase of mobility planning must extend beyond the station itself, toward a connected last-mile ecosystem where feeders, footpaths, auto stands, and parking work together.

The Yellow Line has solved the commute. The real test now is whether Bengaluru can solve the last kilometer.

Murli Padmanabhan

URGENT CIVIC ATTENTION REQUIRED FOR ENTRANCE ROAD TO ICON HAPPY LIVING, KAMMASANDRA

We would like to draw the urgent attention of the Hebbagodi City Municipal Council (CMC) and concerned civic authorities to the extremely poor condition of the approach road leading to Icon Happy Living Apartment, Kammasandra, Hebbagodi. While the apartment falls under Ward 30, the main entrance/approach road falls under Ward 31. This stretch is used daily by hundreds of residents, school vehicles, delivery personnel and emergency services, yet it has remained poorly maintained for years.

Major concerns include: Streetlight poles were installed several years ago, but lights were never provided. As clearly visi-

ble in the attached picture, the poles continue to stand without functioning streetlights, leaving the stretch unsafe after dark. Broken and damaged drainage, resulting in unhygienic conditions and waterlogging. Poor cleanliness and lack of regular civic maintenance. An unused dug borewell occupies a significant portion of the road, making almost half the road unusable at that location and creating a serious safety hazard. Vehicles are regularly parked at road corners and along almost half of the road, making turns difficult and restricting the movement of larger and emergency vehicles. The road has a dangerous curve with poor visibility and a clear blind spot. Blind-spot convex mirrors, warning signage and scientifically designed speed humps should be installed immediately to reduce the risk of vehicle collisions.

The seriousness of the situation cannot be ignored. Recently, we lost our dear resident Mr. Suresh following an

unfortunate incident associated with the poor condition of the entrance road. This tragic loss highlights why preventive action cannot be delayed. We request the Hebbagodi CMC and concerned authorities of Wards 30 and 31 to jointly inspect the area and urgently complete the pending streetlight work, repair the drainage, restore the road, address the unused borewell, improve cleanliness, regulate roadside parking and introduce safety measures at the blind curve. We do not want to lose another resident's life because basic road-safety measures were not implemented in time. This requires immediate priority and action.

Take Care of Your Heart Today

Your heart beats for you every moment of every day quietly powering your life, supporting your family and helping you pursue the things you love. Caring for it does not require dramatic changes. It begins with small, consistent choices made today. Heart disease remains one of the major health challenges in our society, and it is increasingly affecting people at younger ages. The encouraging news is that many heart problems can be prevented, or their risk significantly reduced, through simple lifestyle changes. Start with your diet. Include more vegetables, fruits, whole grains, pulses, nuts and seeds. Reduce excess salt, added sugar, fried and processed foods, and foods rich in unhealthy fats. Healthy eating is not about strict restrictions, it is about making better choices consistently. Stay physically active. Aim for at least 150 minutes of moderate exercise every week, such as brisk walking, cycling or swimming. Avoid prolonged sitting and make movement part of your daily routine. Know your blood pressure, blood sugar and cholesterol levels, and maintain a healthy body weight. These conditions can remain silent for years while gradually damaging the heart and blood

vessels. If you smoke or use tobacco, quitting is one of the most important steps you can take for your cardiovascular health. Adequate sleep, stress management and strong social connections are also important parts of heart health.

Finally, never ignore symptoms such as chest discomfort, breathlessness, unexplained sweating, sudden weakness or fainting. Recognising warning signs early and seeking medical attention promptly can save lives. Take one heart-healthy step today: go for a walk, choose a nourishing meal, check your health numbers or speak with your doctor about your risk factors. Small actions, repeated every day, can make a lasting difference.

Your heart works for you every moment. Give it the care it deserves, starting today.

Voluntary Blood Donation Camp Promotes Community Spirit in Neeladri Nagar

A voluntary blood donation camp was organized on 25 September 2026 at Neeladri Nagar, Electronic City 1st Phase to encourage people to come forward and support those in need of blood. The camp was organized by Anugraha Educational & Social Trust, Shikaripalya and Yekadanta Vinayaka Balaga in association with the Indian Red Cross Society, Bengaluru Branch.

The initiative was organized under the direction of Dr. Nagaraj Gandigudi who was instrumental in bringing the organizers and community members together for the cause.

The program was enthusiastically attended by residents and volunteers who showed their readiness to contribute to a social cause that saves lives. The event also helped raise

awareness about the importance of voluntary blood donation and the need to maintain adequate blood supplies for patients requiring emergency treatment, surgeries and other medical care. The camp was made possible thanks to the donors, volunteers, medical personnel and community members for their participation, the organizers said. The project showed how a collective community effort can make a difference to society.

The organisers hope that such initiatives will continue to inspire more people to become regular voluntary blood donors and contribute towards saving lives.

Have you noticed?

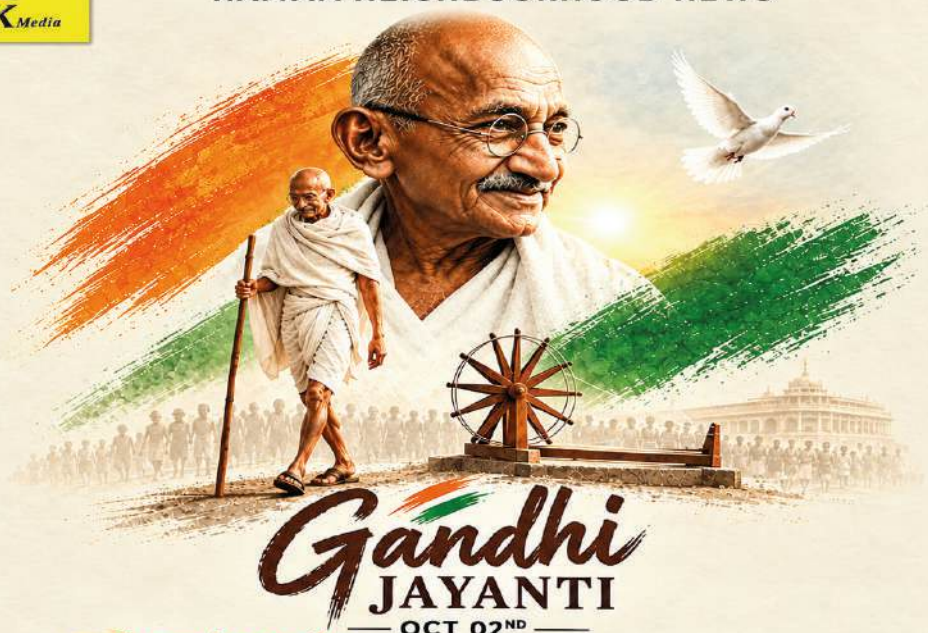

We often wait for the "right" situation to feel happy. Just as we protect our health with nourishing food, protecting our happiness - throughout the day, whatever the situation - nourishes our mind.

ONAM CELEBRATIONS AT P.S.R. KRISH KAMAL

Onam celebrations at P.S.R. Krish Kamal Apartments grew bigger, brighter and more colourful this year, bringing the entire community together as one family. From tiny tots to energetic seniors, everyone participated enthusiastically in games, songs, dances and friendly competitions. The beautifully crafted Pookalam, created through teamwork and creativity, remained a major highlight. The traditional Sadya brought residents together over a delicious festive meal. The celebrations continued with lively performances, music and fun, culminating in the much-loved tug-of-war, with children, youngsters, parents and seniors joining in equal spirit. The growing participation and shared traditions truly made this Onam a memorable celebration of community and togetherness.

SMSC Trust Brings Smiles to Children Through Track Suit Distribution

SMSC Trust recently organised a meaningful initiative to support children by distributing track suits to students at Podu Govt. school. The programme was led by the Trust's Vice President, Rajeswari Madam, and Secretary, Komala Muniraju Madam,

who personally handed over the track suits to the children.

A total of 60 sets of dresses were distributed as part of the initiative. The distribution brought smiles to the faces of the children and reflected the Trust's continued commitment towards supporting and

encouraging young minds. SMSC Trust extends its heartfelt gratitude to all the individuals tributed towards this cause. Their generous support made the initiative possible and helped bring happiness to the children. The Trust also encourages well-wishers and supporters to visit the school whenever they get an opportunity, interact with the children, and experience their enthusiasm and warmth personally. Such initiatives remind us that even a small contribution can create a meaningful impact when a community comes together with compassion and kindness.

E-City Runs with Chal Yaaar Run Club

Bengaluru, Electronic City: What started as a simple idea to make running more social is growing into a community movement in Electronic City. Chal Yaaar Run Club is creating spaces where people can step outside their usual routines, meet new people and experience fitness as a shared activity rather than an individual pursuit. The recently organised Family Run Fest on Sunday 20th September, brought families and residents of Electronic City together for a morning of running, fitness and entertainment. The event was designed around a simple idea - bringing the community together, one run at a time. With families

participating together, the event encouraged people of different age groups to interact, stay active and build new connections. **For Chal Yaaar, however, running is only the starting point.** The community is now gearing up for its upcoming event, Temple Run, scheduled for 3 October 2026, which aims to turn Electronic City's Saturday evening into a celebration of fitness, friendship and fun. Unlike a conventional running event, Temple Run will combine a community run with a range of interactive activities including running around the lake, skim boarding, water-balloon battles, spike-ball, music and a DJ-led experience. The idea is to

create an environment where participants can come with friends, meet strangers, get out of their comfort zones and simply enjoy being part of a community.

Chal Yaaar Run Club is a community-driven running initiative based in Electronic City, Bengaluru, focused on bringing people together through running, fitness, recreational activities and social experiences.

Coordinated collective solutions can solve gigantic problems.

On 24th Sep, 2026, under the leadership of Urban Development Minister Mr. Krishna Byre Gowda, Stakeholder Consultation on Solid Waste Management was organized by BSWML and GBA. It witnessed more than 150 participants including Stalwart Organizations working in SWM field from all over Bengaluru. There was discussion, ideation and a clear intent to drive to solutions. Krishna Byre Gowda Sir was quite open in acknowledging the pain points in the current system. He wanted to listen to ideas from citizens.

The citizens who attended were invited to join one of the five discussion groups, discuss and present their points in terms of short-

term, mid-term and long-term solutions. The groups were: Improving Household Collection, Exploring Effective Waste Management Solutions, Monitoring, Framework for Volunteer Participation, Information, Education and Communication (IEC)

Being an Environment educator and a firm believer of the immense role of communication, I joined IEC group. A total of 80+ points were discussed as solutions to different problems in Solid Waste Management. Few of the solutions were decentralized wet waste management, a one app solution for dry waste disposal, multilingual approach for outreach, making it mandatory by the Government for BAFs/

Schools/ Religious Institutions/ Corporates to organize awareness sessions and ensure that SWM mandate is followed by taking different measures.

Each team was heard patiently by the Minister and there was an assurance that the points will be reviewed and put into action wherever possible. Each team will send a detailed draft of the action points to the Ministry shortly.

ROYAL RANGERS CLINCH EAGLES RAPID SERIES SEASON 2 TITLE IN THRILLING FINALE

Sujit Jena-led Royal Rangers overcome Cricket Knights by four wickets in a nail-biting T20 final; Shahbaz stars with an unbeaten 58 and two wickets

In a thrilling finale at Eagles Cricket Ground, Bengaluru, Royal Rangers, led by Sujit Jena, emerged victorious over Cricket Knights by four wickets to lift the trophy in the Eagles Rapid Series Season 2. In a match that witnessed dramatic momentum swings, exceptional bowling and a last-over finish, Royal Rangers held their nerve to clinch the championship in spectacular fashion. The six-team tournament culminated in a fiercely contested final, with both sides displaying tremendous determination and competitive spirit.

Cricket Knights Start Strong Before Rangers Strike Back: Batting first, Cricket Knights made an impressive start, dominating the opening 10 overs and scoring at a brisk rate of nearly 8.4 runs per over. At 86/2 after 10 overs, they appeared well-positioned to post a formidable total. However, Royal Rangers staged a remarkable comeback through disciplined bowling and outstanding fielding. The turning point came when Hemanth produced a sensational spell, claiming three wickets in a single over. His impressive figures of 4 wickets for 17 runs dismantled the Cricket Knights' batting lineup and dramatically shifted the momentum. Shahbaz and Ganesh provided excellent

support, combining to take five wickets between them. The Rangers' bowlers ultimately bundled out Cricket Knights for 134 in just 17.3 overs, restricting them to a total considerably below their promising start.

Shahbaz and Shoaib Deliver Under Pressure: Chasing 135 for victory, Royal Rangers faced an equally challenging battle. Their innings got off to a cautious start, with the team managing just 55 runs for the loss of four wickets after 10 overs. The middle overs proved difficult as Cricket Knights maintained pressure with disciplined bowling. With the match hanging in the balance, Shahbaz and Shoaib joined forces to revive the chase. Their crucial partnership brought Royal Rangers back into contention and kept their hopes of lifting the trophy alive. As the match entered its decisive phase, the pressure intensified. Shahbaz displayed remarkable composure and attacking intent, taking the game deep before delivering the decisive blows in the final over. He struck two consecutive boundaries to seal the victory, taking Royal Rangers to 135/6 in 19.3 overs, with three balls to spare. His match-winning contribution earned him the Man of the Match award.

Royal Rangers Dominate Tournament Batting Charts: Royal Rangers' success was not limited to the final. Their batting lineup also made a significant impact

throughout the tournament. Among the 130 batters who participated in the six-team competition, three Royal Rangers players—Madhav Reddy, Sujit Jena and Vansh—secured places among the tournament's top four run-scorers. This remarkable achievement highlights the team's consistent batting strength and its contribution to their championship-winning campaign.

Royal Rangers' Star-Studded Squad: Royal rangers feature some of the best cricketers of Bangalore lead by Sujit Jena (C), Sk Shoaib Ahmed (VC), Madhav Reddy, Ganesh Gowda, Deepak Achary, Hemanth, Shahbaz, Shubham (Cobra), Vansh, Rohit Raveendran, Ajay Rao, Karthik P, Dasrath, Ravi G, Abinash, Sanskar Jha, Ashish Ranjan, Anirudh, Lalit etc.

A Memorable Finish to Season 2: The final was a fitting conclusion to the Eagles Rapid Series Season 2, featuring thrilling cricket, individual brilliance and an extraordinary comeback. From Hemanth's game-changing bowling spell to Shahbaz's match-winning knock, Royal Rangers demonstrated resilience and teamwork when it mattered most.

Under the leadership of Sujit Jena, the Rangers held their nerve in a high-pressure encounter to emerge as champions, bringing the tournament to a memorable close.

Concorde Mannhattans & Boson White Water: A Step Towards Water Security

Concorde Mannhattans Apartments has partnered with Boson White Water to promote sustainable water management and responsible resource utilisation. Through this innovative initiative, treated wastewater is converted into a valuable resource for reuse, significantly reducing dependence on fresh water.

The project is expected to conserve approximately 2.16 crore litres of water every year, delivering meaningful environmental

and social benefits. It demonstrates how residential communities can adopt practical solutions to address water challenges while creating a greener and more sustainable future. Boson White Water sincerely appreciates the Concorde Mannhattans Association Committee, Management Team and residents for their vision, trust and continued support in making this initiative a success.

Together for a Water Secure Tomorrow

₹1.16 LAKH LADDU AUCTION STEALS THE SHOW

Ganesh Chaturthi was celebrated with great grandeur and enthusiasm at SV ELITE Apartment, Vivekananda Street, Doddathogur, Electronic City, Bengaluru. The seven-day celebration witnessed active participation from residents of all age groups, including adults, youngsters, and children. The festivities featured multiple games, cultural programmes, and various community activities, creating a vibrant at-

mosphere throughout the apartment. Annadnam was organised for all seven days, bringing residents together in the spirit of devotion and togetherness. The highlight was the Laddu auction, which fetched an incredible ₹1,16,116, with Yamasani Madhusudhan winning the auction in tough competition. The celebrations concluded with a lively Ganesh Visarjan, with SV ELITE members participating enthusiastically.
